APPENDIX 2 – Consistency with the *Greater Sydney Region Plan*, *South District Plan* and Council's *Local Strategic Planning Statement* 2040

Amended Planning Proposal

Georges River Local Environmental Plan

(PP2019/0004)

<u>June</u> 2020

Ref No: D19/240532

Deleted: March

South District Plan Planning Priority	South District Plan Action	Greater Sydney Region Plan Objective	LSPS Priority	LSPS Action	Comment
S1. Planning for a city supported by infrastructure	 Sequence growth across the three cities to promote north-south and east-west connections. Align forecast growth with infrastructure 	 O1. Infrastructure supports the three cities O2. Infrastructure aligns with forecast growth – growth infrastructure compact O3. Infrastructure adapts to meet future needs O4. Infrastructure use is optimised 	 P1. We have a range of frequent, efficient transport options to connect people, goods, services, businesses and educational facilities P4. Collaboration supports innovation and delivers infrastructure, services and facilities P6. Everyone has access to efficient digital connectivity P10. Homes are supported by safe, accessible, green, clean, creative and diverse facilities, services and spaces 	 A17. Adopt a policy statement that zoning changes will be contingent on the existing or suitable infrastructure provision and services A18. Investigate appropriate infrastructure funding options where there is an uplift in density A43. Investigate the provision of additional housing and jobs along new transport links as new infrastructure is committed/funded by the State Government 	 The intent of this Planning Proposal is to harmonise the existing Hurstville and Kogarah LEPs into a principal Georges River LEP so that a consistent approach is applied to planning and development across the LGA, whilst introducing new controls and providing flexibility to development, consistent with the objectives of the District Plan. The proposed uplifts are limited to rezoning 5 areas of the LGA (known as the Housing Investigation Areas) to accommodate new housing and encourage housing diversity. The areas proposed to be up-zoned are located within walking distance to transport infrastructure, such as train stations and frequent bus services, and existing commercial centres (consistent with LSPS Action A43). The LEP is supported by a range of specialist reports including the <i>Infrastructure Integration Gap Analysis and Roadmap</i>, which assists Council in identifying infrastructure required to support housing and employment to achieve Council's vision in the LSPS. The outcomes of this analysis will be implemented in the staged approach of the Georges River Principal LEP. In accordance with LSPS Actions A17 and A18, a local provision, Clause 6.10, ""Essential services", is proposed in the <i>GRLEP 2020</i> to ensure any future development applications demonstrate that there is sufficient essential services and infrastructure in place to service new development. When and as required, infrastructure may need to be augmented and upgraded by individual developers. This Planning Proposal was placed on public exhibition in accordance with the conditions of the Gateway Determination and a number of State Government agencies were invited to review and provide comment. Transport for NSW provided the following comments in relation to infrastructure; Support has been indicated for the introduction of a minimum non-residential floor space control within the LGA's business zones as this will provide more employment around existing transport nodes and thereby assisting in a
S3. Providing services and social infrastructure to meet people's changing needs	 8. Deliver social infrastructure that reflects the needs of the community now and in the future 9. Optimise the use of available public land for social infrastructure 	O6. Services and infrastructure meet communities' changing needs	 P4. Collaboration supports innovation and delivers infrastructure, services and facilities P6. Everyone has access to efficient digital connectivity P10. Homes are supported by safe, accessible, green, clean, creative and diverse facilities, services and spaces 	 A17. Adopt a policy statement that zoning changes will be contingent on the existing or suitable infrastructure provision and services A28. As part of major redevelopments explore mechanisms and precincts to deliver additional infrastructure including education, cultural sporting and aquatic facilities, public 	This Planning Proposal is consistent with LSPS Actions A17 and A28, as it zones hospitals and educational establishments SP2 Infrastructure to retain land for these important infrastructure. This Planning Proposal also proposes 'entertainment facility' at Jubilee Stadium as an additional permitted use through Schedule 1 of the <i>GRLEP 2020</i> . Jubilee Stadium is recognised in the LSPS as one of Council's key infrastructure and permitting entertainment facilities at Jubilee will enable the Stadium to be consolidated as a regional sporting and entertainment hub with a range of recreation and entertainment options for local residents and visitors.

				spaces, multi-purpose	
S4. Fostering healthy, creative, culturally rich and socially connected communities	10. Deliver healthy, safe and inclusive places for people of all ages and abilities that support active, resilient and socially connected communities	 O7. Communities are healthy, resilient and socially connected O8. Greater Sydney's communities are culturally rich with diverse neighbourhoods O9. Greater Sydney celebrates the arts and supports creative industries and innovation 	 P1. We have a range of frequent, efficient transport options to connect people, goods, services, businesses and educational facilities P2. Everyone can navigate and experience the LGA in safety P3. Roads, footpaths and cycleways are safe, accessible and free of congestion P7. Residential suburbs will be protected and retained unless identified as areas of change or investigation P19. Everyone has access to quality, clean, useable, passive and active, open and green spaces and recreation places 	community hubs A17. Adopt a policy statement that zoning changes will be contingent on the existing or suitable infrastructure provision and services A60. Introduce a broader range of land uses in the IN2 Industrial Zone in Council's LEP 2020	This Planning Proposal is consistent with LSPS Action A17, additional housing through the up-zoning of existing low dens in highly accessible areas which are serviced by shops, scho community facilities. The 5 areas proposed to be up-zoned a walking distance to transport infrastructure, such as train stabus services, encouraging alternate modes of transportation, public transport, walking and cycling. The Planning Proposal will also directly support Action A60 of providing appropriate controls to foster a diverse range of inc Zone. Through Clause 6.17 "Creative industries in Zone IN2" permit a range of uses, which do not compete with industrial uses within the IN2 Zone, including creative and innovative in media, advertising, fine arts and craft, design, film and televis publishing, performing arts, cultural and heritage institutions.
S5. Providing housing supply, choice and affordability with access to jobs, services and public transport	 16. Prepare local or district housing strategies 17. Prepare Affordable Rental Housing Target Schemes following development of implementation arrangements 	O10. Greater housing supply O11. Housing is more diverse and affordable	 P7. Residential suburbs will be protected and retained unless identified as areas of change or investigation P9. A mix of well-designed housing for all life stages caters for a range of lifestyle needs and incomes P10. Homes are supported by safe, accessible, green, clean, creative and diverse facilities, services and spaces P19. Everyone has access to quality, clean, useable, passive and active open and green spaces and recreation spaces 	 A43. Investigate the provision of additional housing and jobs along new transport links as new infrastructure is committed/funded by the State Government A44. Provide zones and development controls that confine higher density development to centres along public transport corridors in Council's LEPs A47. Complete a Local Housing Strategy that includes planning for District Plan housing targets, a hierarchy of residential zones, providing targets for inclusive housing and addressing housing diversity 	density development to support the varying needs of the LGA This Planning Proposal seeks to create additional housing su in accordance with LSPS Actions A43 and A44 through the h existing LEP controls and the up-zoning of 5 existing low der to medium density and high density to create opportunities for (approx. <u>650</u> dwellings) in locations close to transport and ce

S10. Retaining and managing industrial and urban services land	 39. Retain and manage industrial and urban services land, in line with the Principles for managing industrial and urban services land, in the South District by safeguarding all industrial zoned land from conversion to residential development, including conversion to mixed-use zones. In updating local environmental plans, councils are to conduct a strategic review of industrial lands 40. Consider office development in industrial zones where it does not compromise industrial or urban services activities 42. Facilitate the contemporary adaptation of industrial and warehouse buildings through increased floor to ceiling heights 	O23 Industrial and urban services land is planned, retained and managed	P12. Land is appropriately zoned for ongoing employment growth	A60. Introduce a broader range of land uses in the IN2 Industrial Zone in Council's LEP 2020	The Planning Proposal seeks to increase the maximum build Light Industrial zone to improve development viability and er development. The proposed controls provide for a flexibility of investment and redevelopment of industrial lands. In addition height controls will promote increased industrial floor space a 1:1 cannot be achieved within the existing height limit of 10m The Planning Proposal also seeks to increase minimum sub- prevent the fragmentation of industrial land and retain large I employment opportunities and allow the operation of a diver- uses, such as warehousing which requires large floor plates. Pursuant to LSPS Action A60, it is also proposed to introduc a permissible land use in the IN2 Light Industrial zone. To m office floor space provided within the IN2 zone to ensure suf space is retained for industrial uses and industrial and urban are not compromised by office development, restrictions are amount of office floor space permitted through Clause 6.15 " Zone IN2". It is also proposed to permit creative and innovative industrie premises, and restaurants and cafes within the IN2 zone to p land uses within the zone, promote job creation and meet the work within or visit the industrial precincts.
S11 Supporting growth of targeted industry sectors	 46. Consider opportunities to implement place-based initiatives to attract more visitors, improve visitor experiences and ensure connections to transport at key tourist attractions 47. Consider opportunities to enhance the tourist and visitor economy in the District, including a coordinated approach to tourism activities, events and accommodation 48. Create capacity for tourist accommodation in appropriate locations through local environmental plans 	O24 Economic sectors are targeted for success	 P8. Place-based development, quality building design and public art deliver liveable places P15. All local centres are supported to evolve for long- term viability 	 A26. Consolidate Netstrata Jubilee Stadium as a regional sporting and entertainment hub, a premier sporting precinct with a range of recreation and entertainment options A54. Encourage temporary events through Council's LEP 2020 	The <i>GRLEP 2020</i> provides opportunities to implement place attract more visitors, improve visitor experiences and ensure transport at key tourist attractions. The <i>GRLEP 2020</i> enhance visitor economy in the District by permitting "tourist and visitor the B3 zoned area within the Hurstville Strategic Centre to su presence of international students and visitors. The Planning with LSPS Action A54, also proposes a coordinated approace activities, events and accommodation, including a 52 day ma temporary use in any zone. This will encourage temporary ev facilities. It is also proposed to add a new additional permitted use in S to permit "entertainment facilities" at Jubilee Stadium, which Council infrastructure. This is consistent with LSPS Action A Jubilee Stadium is a regional sporting and entertainment hub recreation and entertainment options.
S12. Delivering integrated land	51. Integrate land use and transport plans to deliver the	O14. A Metropolis of Three Cities – integrated land use	P1. 					Map excerpts of these properties identified for local open space provided in Appendix 7 .
S17. Reducing carbon emissions and managing	72. Support initiatives that contribute to the aspirational objective of achieving net zero emissions by 2050,	O33. A low-carbon city contributes to net-zero emissions by 2050 and mitigates climate change	P18. An environmentally friendly approach is applied to all new development	A91. Provide provisions in Council's LEP 2020 to ensure development in business, industrial and high density	In accordance with LSPS Action A91, this Planning Proposal provision, Clause 6,12 "Environmental sustainability in certai and residential zones", to promote urban design and best praenvironmentally sustainable development principles.

South District Plan Planning Priority	South District Plan Action	Greater Sydney Region Plan Objective	LSPS Priority	LSPS Action	Comment
energy, water and waste efficiency	especially through the establishment of low-carbon precincts in Planned Precincts, Collaboration Areas and Urban Transformation projects 74. Protect existing and identify new locations for waste recycling and management	O34. Energy and water flows are captured, used and re- used O35. More waste is re-used and recycled to support the development of a circular economy		residential zones is consistent with principles of sustainable practice and environmentally sensitive design	Council's initiative to promote waste efficiency is also addres of design considerations for waste management facilities in 0 excellence".
S18. Adapting to the impacts of urban and natural hazards and climate change	 78. Support initiatives that respond to the impacts of climate change 79. Avoid locating new urban development in areas exposed to natural and urban hazards and consider options to limit the intensification of development in existing urban areas most exposed to hazards 80. Mitigate the urban heat island effect and reduce vulnerability to extreme heat 	O36. People and places adapt to climate change and future shocks and stresses O37. Exposure to natural and urban hazards is reduced O38. Heatwaves and extreme heat are managed	P18. An environmentally friendly approach is applied to all new development P20. Development is managed to appropriately respond to hazards and risks	A84. Expand the Foreshore Scenic Protection Area across the LGA through Council's LEP 2020 A88. Develop and implement the Tree Management Policy to increase urban tree canopy and biodiversity across the LGA	 The proposed controls under the <i>GRLEP 2020</i> which include associated with the foreshore scenic protection area (LSPS A lot sizes and the proposed landscaped controls in residential protection zones, focus on the protection of the natural lands tree canopy (LSPS Action A88), which will as a result mitigate island effect and reduce vulnerability to extreme heat. The proposed Clause 6,11: "Design excellence" contains a redevelopments to incorporate water sensitive urban design election as a result of climate change. The <i>GRLEP 2020</i> also includes provisions relating to the fore coastal hazards that seek to mitigate the impacts of sea level inundation as a result of climate change. The proposed up-zonings that will result in residential intensite Planning Proposal are located in existing urban areas and areas known to be prone to natural or urban hazards such as rise. To mitigate the urban heat island effect, the proposed Clause provision of at least one tree on every site and the provision of trees for every tree that is approved to be removed.
S19. Preparing local strategic planning statements informed by local strategic planning	81. The Greater Sydney Commission will require a local environmental plan review	O39. A collaborative approach to city planning	Not applicable – the preparation of the LSPS responds to this District Plan Priority.	Not applicable – the preparation of the LSPS responds to this District Plan Priority.	 This Planning Proposal has been directly informed by the <i>Gre Plan</i>, the <i>South District Plan</i> and Council's draft <i>LSPS 2040</i>, exhibition between 26 June 2019 and 7 August 2019. This Planning Proposal has been informed by an extensive e comprising of specialist reports that have been prepared in reknowledge gaps identified through Council's LEP review procestrategies and studies respond to the four themes of infrastruc collaboration, liveability, productivity, and sustainability that u <i>Sydney Region Plan</i> and <i>South District Plan</i>. The full suite of and studies are listed in the LSPS. The LSPS proposes a staged approach to preparing the com River LEP due to the detailed investigations required to supp changes proposed in the LSPS. The staged approach to preparing the preparement of the property of the staged approach to preparement of the prepa
